NEW JERSEY YACHT CLUB REGATTA. A SLUGGISH RACE-ENTRIES AND INCIDENTS-

THE DABE DEVIL VICTORIOUS. The seventh annual regatta of the New Jersey Yacht Club took place yesterday between the Eiyaian Fields, Hoboken, and the foot of Eighty-fifth atreet, New York. The entire course sailed over was about twenty Some disappointment was expressed at the withdrawal from the race in the second class of Cap-tain Turner's Letitie, Captain Whitlock's Nettie, Cap-tain Griffin's Jesse Maud and Captain Pasel's Carrie P. In the third class there were absent Captain Williams' Sue, Captain Vouder Fecht's Arcola and Captain Forbes' Dione, Fourteen boats were entered, but

but they were delayed by the strong ebb tide until a quarter to eleven o'clock, when the first signal was given to start, and the line was crossed at ten minuets to eleven. The tide ran strong, while the wind was light, coming from the northeast. The canvas barely managed to stand up 'on edge." The Fredder ran aground. Fortunately a atout pole and some lively pushing got the crait off the shore, and she soon loined in the lazy struggle against the tide. According to the rules of the association the use of the pole prevented the yacts from further composition, so that her legitimate run was only about 125 feet. After the first turn around the lower stakeboat the breeze stillened, and between two and three were instalments of wind in sparts of ill teen minutes each, which sent the little crait flying through the yellow water. The Eatelle made the first turning, closely followed by the Eastelle led, followed by the Charm ten minutes later. The finish was quite interesting, for the breeze had freshened and the time was "flood."

The Charm came down with full canvas and shot past the stakeboat, but on the outside of it. The Dare Devil was close behind her, but instead of following her the suddenly turned a short distance below the boat, and came around just above the finishing line, quite in advance of the Charm. Then it looked as if the Dare Devil would win. She had only a few long line, a burst of hearty appliants followed, but the theavy flood tide was against her, and the scircely moved. Meanwhile the Charm crept up, took all the wind there was, and, like a swan, glued past the helpless Daro Devil and passed the finishing line. A burst of hearty appliants followed, but it suddenly occurred to some one that there was a time allowance to be deducted. This gave the victory to the Dare Devil.

The following table gives the start, the finish, the course time and the corrected time. The boats started in the order here given: quarter to eleven o'clock, when the first signal was

BROOKLYN YACHT CLUB,

The Brooklyn Yacht Club held their regular monthly meeting last night at the club rooms, corner of Court and Montague streets, President Henry W. Turner in the chair. The chairman of the Regatta Committee reported favorable progress in rela tion to the coming regatta. He also reported that the committee had decided not to offer any tickets for sale and to allow each member of the club two, instead of one, as has been the custom. The club then approved a form of circular in regard to the

crub then approved a form of circular in regard to the regatta which will be issued to thoowners of yachts who are not members of the club. Mr. John F. Ames was chosen to fill the vacancy caused by the death of Mr. William H. Ringwood.

A resolution was adopted to the effect that where three or more yachts of the club were present at any sunchorage the senior yacht owner must fly the acting commowore's flag during the regular hours, unless one of the flag officers should be present. It was proposed to amend the bylaws so that the lowest limit of yachts would be seventeen feet instead of twenty.

YACHTING NOTES.

The yacht Restless, N.Y.Y.C., Commodore S. N. Kane, from New Rochelle, and the yacht Estelle, N.Y.Y.C., Mr. J. D. Smith, from the castward, passed the HERALD Telegraph Station at Whitestone, L. L., yesterday afternoon on route to New York.

UPPER HUDSON REGATTA

TROY, N. Y., June 12, 1878. The regatts of the Upper Hudson Regatts Association opened to-day and will continue through tomorrow. The weather was fine. A large crowd assembled at the starting point, and both sides of the river were lined with spectators. The races were rowed over a new course, surveyed last winter. which the majority of oursmen present consider very short. This, with a strong current and a favorable wind, rendered the sime exceedingly fast.

At two o'clock the first heat of fours was called, and three crews started—the Filleys, of Lansingburg: tute crew. The Saugerties took the lead, with the Fillers second and students last. These positions were maintained to the finish. Time for a mile and a half (the length of the course), 7m. 58 %s., 8m. 10s. Sm. 15. This is remarkably fast. The best time beretolore accomplished on the Hudson River was made by the Beaverwycks, in 1875, over the Laureate course, their time being Sm. 22½s. There was great aurprise on the aunouncement of the official time to-

made by the pawer weeks, in 1875, over the Laurente course, their time being Sin. 22348. There was great surprise on the aunouncement of the official time today.

The next event was also a four-cared race, and was contested by the Cohoes and the Watervilets, of West Troy, and the Olympics and Mutuals, of Albany. The boats all got off at the word "Go," but the Olympics shortly took the lead, the Mutuals second and the Cohoes and Watervilets side by side. These positions were minimized three-quarters of a mile, when the Cohoes pulled up, passed the Mutuals and endeavored to overtake the leaders. There was an exciting race between the Cohoes and the Olympics to the finish, the Olympics coming in first, Cohoes second, Mutuals a third, Watervilets lest. Time, 7m. 58158. Sm. 583, Sm. 12358. Sm. 31358. No. 30 time Watervilets lest. Time, 7m. 58158. Sm. 583, Sm. 12358. Sm. 31358. No. 30 time Watervilets crew caught a "crab" at the mile point, which prevented all chance of victory.

At half-past three o'clock a pair-eared race took place between the Mutuals, of Albany, and the Filleys, of Lansingburg. It was entirely one-sided, the former winning in Sm. 408. Filleys' time, 9m. 458.

The first junior slogic trial heat, between Frank Puller, of Mohawk, and Charles Kingsley, of the Polytechnic lostitute, resulted in a victory for the former. Kingsley stopped completely exhausted at the mile. He had been sick for the past three days. Time, 9m. 536.

The final race of the day was between Henry Hoftman, of the Mutual Club; Charles Gout, of the Olympic Unib, and Charles Grant of the Ulysses Club. It was a beautiful contest all through. At the three-quarters of a mile the boats were side by side. Shortly alterward Goul was obliged to cesse rowing on account of exhaustion. Hoffman them, shot abend of Grant about three lengths, but the latter reduced the dustance to one length before the finish. Hoffman's time, 9:25 grant's time, 9:284.

BOAT RACE ON THE PASSAIC.

A very interesting and well contested challenge race on the Passaic, at Newark, beginning about Bix o'c ook last evening, between two crews-one of the Triton Club and the other of the Passaic Clubboth of Newark. It was a six-oared barge race; course one mile and a balf, straight away with the

course one mile and a balf, straight away with the bide. The crews were:—

TRITONS—S. A. Smith, bow; H. C. Rommel, No. 2; Ucorgo B. Smaai, N. 3; Frankin Phillips, No. 4; Alexander Handy, No. 5; E. L. Phillips, stroke; Wallace Van Ness, coxswain.

Passaica—W. T. Pelletier, bow; W. Y. Merry, No. 2; W. McD. Pierson, No. 3; Maynard Grane, No. 4; G. C. Pignie, No. 5; E. H. Snyder, stroke; F. C. Watts, coxswain,

Achie shirt the Tritons took the lend and soon incremeds as bost length, adding another half as they passed, their own boat house, and were lustify nacered by their friends. Prasonity, however, the Passaics bent to their oars, increased their stroke, and lapped their competitor. When nearing the winning line the Passaics fell away and the fritons came in victorious by a boat length or so. The winning time the Passaics fell away and the fritons came in victorious by a boat length or so. The winning time the Passaics was that they nad been training hard for a mouth, while the Triton crew, although finely selected, bad never pulled together once until the race.

Alter the race, at an entertainment given by the Passaic Club to their friends, each member of the winning crew was presented with a handsome gold prize lundge. The Fritons were the challengers in the race rowed yesterday.

CREEDMOOR.

Wh'le the postpoued match for the Sparp's prize of \$250 was being shot at Creedmoor yesterday the wind give much trouble to the contesting marksmen. It varied inrough a full semicircle on the dial, fand brought the scores at the 9:0 and 1 000 yards ranges very considerably below those which were made on Saturday at 500 yards. According to the conditions of the match no competitor can be awarded the prize unless his score lends at all three ranges; in

yesterday's competition Mr. Jackson, who led at Stoyarus, felt behind Mr. Rathoone at 200, and consequently the prize will remain open for competition on
ituters occasions. Four confustants completed their
scores. Several of the other contestants have signified their miention of protesting against the shooting
of a part of the match to-day as a continuation, instead of reshooting the entire string.

The record stood as follows:—W. H. Jackson, 198;
R. Rainbone, 192; H. Fisher, 167; T. Lamb, 188.
At hail-past two P. M. the tairf competition, for
the "American Cyclopedia," opened with thirty competitors at the firing points. This match was open to
all comers, armed with any riffe. The distances were
200 and 300 yarus, seven shots, with two sighting
shots at each distance. The prize must be won three
times to become the property of any competitor.

Mr. E. Lewis led all competitors yesterday, with 50
points out of the possible 70. The record stood as fellows:—

F. Dorrance, Wilkesbarre; Mr. W. U. Dorris, of Huntington, Secretary, and W. C. Macrum, Treasurer, The Luzerne County Cutb did the honors of host, and to-day tendered the visiting delegations an excursion and dioner.

General Univer's rille practice range was the objective point. The company numbered some 300. Une thousant glass balls and 600 wild pigeons were shot at. The best shot was unanimously awarded to John Ely, of Wyoming Valley, he having made a ciesa score. William McCollough, of Plains, was the next best. Richards and Finner, of Philadelppia, were the next in ratio. In the rifle contest at 200, 300, 500, 800 and 1,000 test, Dr. Long, of Pitston, made the best average, 'udge Dana and Captain Parker second and third, and Sheriff Hendersob, of Huntington, fourth.

fourth.

Dissentions in the Luxerne County Club have created such a bitter feeling that many have not participated in the sports to-day, and your reporter is advised that those who have shot wild pigeous will be arrested too morrow on warrants charging them with a violation of the Game law. Should this threat be executed, the result of the trials will be upon the legal interpretation of the definition of fowl, which to some minds is not a very obscure problem.

THE BOARD OF TRADE.

The monthly meeting of the Board of Trade and Transportation was held yesterday afternoon, the President, Captain Ambrose Snow, in the chair. Mr. A. B. Miller, chairman of the Committee on Canals, made a voluminous report on the canal traffic, in

made a voluminous report on the canal traffic, in which he demonstrated how essential the canals are to the prosperity of New York city.

Mr. Charles Warrous presented a lengthy report from the Committee on Legislation, which concluded with the annexed resolutions:—

Resolved, In the opinion of this Board the management of the railroads in this State, with due regard to the public interest, is a question of paramount importance to every producer, manufacturer and merchant within its boundaries; that the question of ordinary taxation for purposes of government is insignificant compared with the taxation of railroads for transportation, the charges of the latter for this service being tweive times the entire revenues of the batte derived from taxation.

Resolved, That in the past the producing and commercial classes have not given enough attention to this all importants tu ject, and that it is the duty of all classes of citizens to atondly work, both policiant profits the defects and always in the material interests of continuous and the state of the state

and organizations as the cheekers of the phraseology of the fifth resolution. Several members thought the "request to resign" was rather strong and that the "request to resign" was rather strong and that the suggestion would scarcely be acted upon by the Senators. A number of amendments were offered and elicited considerable debate. Finally one offered by Mr. W. H. Libby, which reads, "and as these Senators rendered themselves unworthy of re-election, this Board pledges itself to oppose their renomination and re-election to any office of trust by every legitimate means within its power," was adopted. The other resolutions were also adopted. After the transaction of other routine business the Board adjourned.
